Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-20, drawn to a testing system including a method for routing a plurality of in-coming inquiries by a plurality of user, classified in class 455, subclass 445.
- II. Claims 21-43, drawn to a testing system including a method for routing a plurality of in-coming inquiries by a plurality of user and querying said user as to whether said user desires counseling, classified in class 455, subclass 445.
- III. Claims 44-62, drawn to a testing system including a method for handling a plurality of in-coming inquiries by a plurality of user, classified in class 379, subclass 266.07.
- IV. Claims 63-83, drawn to a testing system including a method for handling a plurality of in-coming inquiries by a plurality of user as well as using risk assessment information, classified in class 379, subclass 266.07.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a testing system including a method for routing a plurality of in-coming inquiries by a plurality of user. Invention II has separate utility such as a testing system including a method for routing a plurality of in-coming inquiries by a plurality of user and querying said user as to whether said user desires counseling. Invention III has separate utility such as a testing system including a method for

handling a plurality of in-coming inquiries by a plurality of user. Invention IV has separate utility such as a testing system including a method for handling a plurality of in-coming inquiries by a plurality of user as well as using risk assessment information. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for each group is not required for other groups, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert W. Morgan whose telephone number is (571) 272-6773. The examiner can normally be reached on 8:30 a.m. - 5:00 p.m. Mon - Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Thomas can be reached on (571) 272-6776. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
